AQUAGEL ACIDO IALURONICO + CERAMIDI Idratante liftante

Un trattamento in crema-gel con 4 pesi molecolari di Acido ialuronico per agire sui diversi strati cutanei e assicurare un'idratazione intensa e multi-livello. All'Acido ialuronico sono associate le Ceramidi, componenti della matrice lipidica intercellulare fondamentali per una barriera cutanea integra e funzionante, capace di trattenere l'idratazione nella pelle evitandone l'evaporazione. L'Inulina, prebiotico naturale, preserva l'integrità del microbioma cutaneo, per una barriera epidermica sana e forte. Risultati: la pelle è istantaneamente disidratata, protetta e rinforzata. Progressivamente, le piccole rughe e i segni di disidratazione vengono minimizzati, la superficie cutanea risulta più morbida e distesa, come liftata. Adatta a tutti i tipi di pelle, anche sensibili.

SENZA ingredienti di origine animale - siliconi - allergeni del profumo - alcool | TESTATO DERMATOLOGICAMENTE E PER LA NON COMEDOGENICITÀ | NICKEL CONTROLLATO\*

COLLAGENE + GLICOGENO Antirughe rassodante

Trattamento in gocce concentrato con Aminoacidi di Collagene Vegetale per garantire un'intensa azione anti-invecchiamento, rassodante e antirughe. Al Collagene Vegetale è associato il Glicogeno, che agisce come fonte di energia in grado di aumentare il metabolismo dei fibroblasti e accelerare la produzione di collagene. Risultati: già dopo le prime applicazioni, la pelle appare più tonica e liscia. Con l'uso regolare e costante del prodotto, diventa sempre più compatta, elastica, forte e resistente. Le rughe e le linee d'impresione si attenuano, i contorni del viso sono progressivamente ridefiniti. Adatta a tutti i tipi di pelle, anche sensibili.
