

SMART SUN PROTECTION®

L'innovativo sistema filtrante pro Vitamina D che reinventa la protezione solare

La nuova formula di filtri UV attiva la vitamina della salute ed esclude solo i raggi dannosi esaltando i benefici della luce su benessere e bellezza della pelle

CREMA VISO ABBRONZANTE PROTEZIONE GLOBALE ANTI-ETÀ

Una formula che difende il DNA cellulare dai danni della fotoesposizione; previene rughe e macchie solari; nutre l'epidermide garantendo una rapida abbronzatura. Consigliata per mani, seno e décolleté.

Non rimanere esposti al sole troppo a lungo anche se si utilizza un prodotto per la protezione solare; tenere i neonati e i bambini piccoli lontani dalla luce diretta del sole; un'esposizione eccessiva al sole costituisce un grave rischio per la salute. Applicare il prodotto per la protezione solare prima dell'esposizione; riapplicare con frequenza per mantenere la protezione, soprattutto dopo aver traspirato o dopo essersi bagnati o asciugati.
